Relax and Rejuvenate with Sound Healing - Services Menu and Pricing*

Biofield Tuning Session: Working on and around the body for 45 minutes - Local Rate: \$40

****SPECIAL RATE: 3 session package for \$100****

Biofield Tuning is a non-medical therapeutic modality that uses sound waves produced by tuning forks in the biomagnetic field, or Biofield (Auric field), that surrounds the human body, to induce deep tangible relaxation. It allows one to release old memories and traumas in a gentle and effective way. The coherent input of a tuning fork gently supports the body in recognizing and correcting its own vibrational imbalances. Biofield Tuning is very beneficial in addressing the underlying causes of Health, Relationship, Career and Financial Issues including Anxiety, Depression, Traumas, Fear, Grief, Guilt, Shame, Addictive cravings, All types of Pain, Adrenal Fatigue, Headaches, Hormonal imbalances, Digestive issues, Respiratory issues and many more . Biofield Tuning enhances health and wellbeing.

Distance Biofield Tuning Session: 1 hour (plus) - Local Rate: \$60

Biofield Tuning is equally effective and can be more powerful when conducted at a distance. The same bioplasmic patterns that would reveal themselves in person appear and respond exactly as if one is present.

Sonic Meridian Flush: Working on the body for 90 minutes - Local Rate \$85

The weighted tuning forks are applied to specific areas on acupressure points and along energy meridian lines to dissolve blocks, increase flow and support the body's natural healing abilities. Organic, tested essential oils and blends are used to support this process. Sonic meridian flush helps to reset and stimulate your life force energetic system leaving you relaxed, refreshed and rejuvenated.

Adrenal Reset: Working on and around the body for 45 minutes - Local Rate: \$40

A Biofield Tuning adrenal reset helps regulate the adrenal glands so that they function at a healthy pace. Modern living can cause them to get stuck in the "on" position, leading to a variety of symptoms, including low thyroid and impaired digestion.
